

HENRIETTA LISK

Bursledon, Southampton, Hampshire SO318AY | 07305 34 89 96 | hlidia_l@yahoo.com

PROFESSIONAL SUMMARY

Experienced WordPress Web Developer with expertise in building and maintaining responsive websites using WordPress, HTML, CSS, JavaScript and PHP. Strong client communication and project management skills, with a proven ability to deliver high-quality solutions across multiple projects.

EXPERIENCE

3/2022 – Present

WordPress Developer

Cavendish Consulting

- Design, build and maintain WordPress websites for a range of clients(Clients include McDonalds, Aldi, McCarthy Stone).
- Develop responsive websites using WordPress, HTML, CSS, JavaScript and PHP.
- Manage website updates, bug fixes, migrations and plugin maintenance.
- Configure hosting, domains, DNS and FTP environments.
- Work with account handlers to gather requirements and provide technical advice.
- Manage multiple projects and deliver work to agreed deadlines.

Key Skills: WordPress, Elementor, HTML, CSS, JavaScript, PHP, Website Maintenance, Hosting, DNS, FTP, Client Communication, Project Management.

02/2016 to 3/2022

WordPress Web Designer

Lisk Web Design

- I have experience with plugin installation and configuration.
- I have performed front end development using HTML, CSS, PHP, JavaScript, version control GIT.
- I currently build and maintain client websites.

03/2006 to 02/2016

Post Development Design Engineer

Ericsson Television

- I've worked on various Ericsson video encoding and decoding equipments.
- My role has been a varied mixture of development in C and C++ (writing interface software, drivers, XML web pages), fixing critical bug issues and engineering testing.
- Other roles include software design and defining software requirements for new features.

03/2005 to 03/2006

Embedded Software Engineer

Link Research Ltd, Vislink Communications Ltd.

- I was responsible for designing, developing and testing a front panel menu control for a High Definition Camera Control unit (written in C).
- Other responsibilities include, project planning, documenting the software requirements, and Software design.

07/2001 to 03/2005

Embedded Software Engineer

Advent Communications Ltd (Currently Vislink Communications Ltd)

- Design, implementing and testing of software (written in C) for a broad range of equipment used in the satellite broadcast industry including frequency converters, digital modulators and redundancy controllers.
- One of my main achievements was in the complete redesign of a 5+2- redundancy system. I was solely responsible for the entire software life cycle, testing, ensuring that the software

was released on time and supporting installation engineers in Jordan.

07/1999 to 07/2000

Kraft Foods International

Placement student

- Preliminary work towards CE marking equipment, PLC (programmable logic controllers) coding using RS (Rockwell Software) logic, APT (Application Productivity Tool) and CVU 10000 (Control Vision Unit).
- SCADA (Supervisory Control and Data Acquisition) upgrade proposals.
- Managed Project for the installation of a -40C deep freeze storage room.

EDUCATION

2001

BEng (Hons): Electronic Systems & Computer Engineering

Sheffield Hallam University

2:1, included in the course: Electronic Engineering, Communication Engineering, Computer Engineering, Object Oriented Design and Program, Project Management, Neural Programming.

Final year project - Application of an Intelligent Programming Language (Genetic Algorithms) for the management of communication networks

1996

Technology Secondary School – Ghana

Awarding Body – West African Examination Council.

Four A-Levels including, Mathematics, Physics, Chemistry, General Studies.

Eight O-Levels including, Mathematics, Additional Mathematics, English, French, Physics, Chemistry, Biology, Geography.

PERSONAL INFORMATION

- Driving License: I have a full license.

HOBBIES

Hobbies include:

- Yoga.
- Windsurfing, Paddle boarding.
- I'm a keen runner and have completed several half marathons to raise money for local charities.
- Did the London to Brighton bike ride (54miles) which I raised money for the british heart foundation.

Other interests include reading, learning spanish, music, playing the piano and cinema.
